NAME: FLU AWARENESS PROGRAMME

PLACE: Ghoklajote Village, Patharghata GP, Matigara

DATE: 19-12-2019

OBJECTIVE:

- The objective of a flu awareness programme is to educate the public about influenza, its symptoms, transmission, prevention measures (such as vaccination and hygiene practices), and the importance of early detection and treatment.
- The programme aims to reduce the spread of the flu virus, minimize its impact on public health, and promote overall well-being within communities.

Students along with the teachers of APCRGC performing programme on flu awareness

OUTCOME:

- Increased awareness and understanding of influenza among the public.
- Higher rates of flu vaccination uptake.
- Adoption of preventive measures such as hand hygiene and respiratory etiquette.
- Reduced transmission of the flu virus within communities.
- Fewer cases of flu-related illness and complications.
- Improved public health outcomes, including fewer hospitalizations and deaths related to influenza.
- Strengthened public health infrastructure and response capabilities for future flu seasons.
