**NAME: CHICKEN POX AWARENESS AND PREVENTIVE MEASURES**

**PLACE: Ghoklajote Village, Patharghata GP, Matigara**

**DATE: 23-12-2019**

**OBJECTIVE:**

- To increase public knowledge about chickenpox, including its causes, symptoms, transmission, and prevention methods.
- To encourage vaccination against chickenpox to reduce the risk of infection and complications.
- To raise awareness about the importance of early detection of chickenpox symptoms and seeking medical care promptly to prevent complications and reduce the spread of the virus.

**PHOTOS:**

**OUTCOME:**

- The awareness program may have successfully educated villagers about the signs, symptoms, and transmission of chickenpox, as well as the importance of vaccination and seeking medical care.
- By understanding how chickenpox spreads, villagers may have adopted preventive measures such as proper hygiene practices and isolation of infected individuals, reducing the risk of transmission within the community.
- Such awareness programme emphasized the importance of seeking medical care promptly if symptoms of chickenpox develop.
